

COVID-19 Advisory

Dear COS family,

With effect from tomorrow 22 March 2020, to safeguard the health and safety of our members, visitors and TLK students, the church has set an internal guideline advising all who are above the age of 70 years and those who have travelled overseas or have household members who have travelled overseas in the last 14 days to stay home and have personal devotion with the Lord.

The following precautionary measures have also been put in place:

- 1) Alternate row seating and maintaining safe distance between families
- 2) Overflow rooms for English, Bilingual and Hokkien services to limit the number of congregants in each hall to not more than 250
- 3) Shortened service times

Please avoid congregating before and after the Service and leave the church premises as soon as possible.

If you are staying home, rest assured that we are setting up alternate means for you to participate in Worship Service.

Further announcements will be made in the coming days. In the meantime, let us continue to pray and rest in the knowledge that God is and will always be sovereign in all things.

Together, 我们一起加油! (Fighting!)
